

# Dreams and Ambitions

The word 'ambition' means the desire and determination to achieve success. In a letter to Will Day in September 1924, Baird wrote:

*"I have spent every penny I possess on this invention and given my whole time to it, and have produced results which have satisfied that the invention is thoroughly practical."*

John Logie Baird devoted every penny and minute he had to achieve his dream.

What are your hopes and dreams for the future?

What is your dream job?

What will it take to turn your dream into a reality?

Draw a quick pencil sketch of your dream (max five minutes).

Why is important to have big dreams?

# Shadow Puppet Design Template

Use this space to design your own shadow puppet. Think about the silhouette (the outline of the shadow) that your puppet will cast. Use bold shapes in your design.
